

LT-A702KLWBG PLUS

Dual Lens Dash Camera with 2K Front Camera and Full HD Rear Camera

The Lamatel LT-A702KLWBG PLUS is a versatile dual-lens dash camera designed to provide enhanced front clarity with 2K resolution and dependable 1080P rear coverage. Ideal for drivers who want both high-quality front footage and rear visibility, this model uses the advanced Novatek NT96565 chipset to deliver smooth, high-definition recording and excellent image stability, even in challenging lighting conditions. Its dual-channel recording ensures that both the road ahead and behind are captured with reliable detail, making it a practical choice for everyday use and professional driving environments. With integrated Wi-Fi, the LT-A702KLWBG PLUS allows users to quickly preview, download, and share recordings through a companion mobile app without removing the memory card. The wide-angle front and rear lenses maximize field of view, while loop recording and G-sensor technology protect critical files during sudden braking, accidents, or impacts. Combining high performance with user-friendly features, it's the perfect balance for those who need premium recording quality at a reasonable cost.

Key Features

- Front 2K Ultra-HD Recording (2560×1440 @30fps)
- Rear Full HD 1080P camera for complete coverage
- Reliable Novatek NT96565 SoC for smooth dual-channel operation
- Built-in Wi-Fi for preview, playback, and easy file transfer
- Wide-angle front and rear lenses for maximum road visibility
- Supports microSD up to 256GB

Specifications

- Daily drivers needing clear front and rear video evidence
- Taxi and ride-hailing fleets seeking reliable dual-channel protection
- Delivery and service vehicles requiring front and rear incident documentation
