

# LT-PM150

## Camera Pole Mount Series

LT-PM150 Camera Pole Mount is a durable and aesthetically designed mounting solution, constructed from high-quality SECC and SUS304 materials. It supports a load of up to 10 kg, making it ideal for securely installing cameras on poles with diameters ranging from 80 to 150 mm, and operates effectively in extreme temperatures from -40°C to +60°C.

### Features

- Material: SECC & SUS304
- Pole mount bracket
- Aesthetic design
- Supports up to 10 kg load
- Operates in -40°C to +60°C
- Corrosion-resistant and weatherproof
- Sleek, professional design

### Key Highlights

- Compatible with most camera models
- Anti-rust, UV-resistant coating
- Vibration and impact resistant
- Heavy-duty steel strap mounting
- Low maintenance, long service life
- Compact and space-efficient design

### Applications

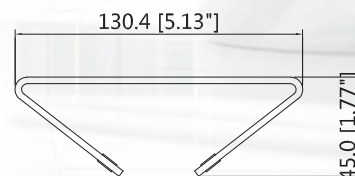

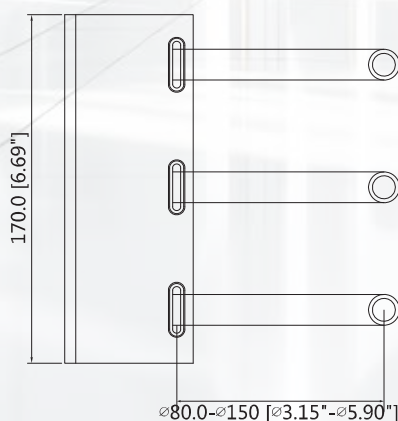

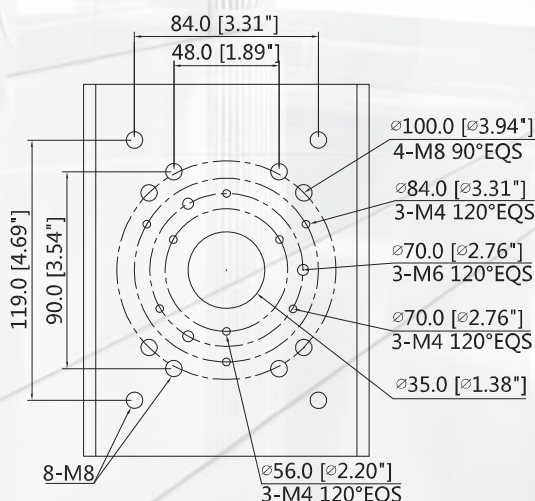

- Street and traffic surveillance
- Industrial and perimeter security
- Parks, stadiums, and public areas
- Highways and remote locations
- Construction site monitoring
- Smart city installations

### Specification

| General Specifications |                                           |
|------------------------|-------------------------------------------|
| Model                  | LT-PM150                                  |
| Material               | SECC & SUS304                             |
| Dimension(WxHxD)       | 130.4mmx170mmx45mm<br>(5.13"x6.69"x1.77") |
| Mast Diameter          | φ80~150mm(φ3.15"~5.91")                   |
| Pipe Thread            | N/A                                       |
| Operating Temperature  | -40 ~+60 (-40 ~+140 )                     |
| Humidity               | 0~90% RH                                  |
| Load Bearing           | 10kg(22.05lb)                             |
| Weight                 | 1.1kg(2.43lb)                             |

### Dimensions (mm/inch)

### Package Includes

- Pole mount bracket \*1
- M8x25 screw \*4
- Wrench \*1
- 80~150mm metal hoop: 3
